Guidelines and Guidance

No new guidelines this month.

Journal articles

Please note that, in order to comply with copyright legislation, we are only able to source a maximum of 2 articles from any one issue of a particular journal on your behalf.

American Journal of Infection Control
Volume 43, Issue 1, Pages A1-A18, 1-98, 1 January 2015

Commentary
Biofilms, medical devices, and antibiofilm technology: Key messages from a recent public workshop
Pages 2-3
K. Scott Phillips, Dinesh Patwardhan, Geetha Jayan

Major Articles
A decade of investment in infection prevention: A cost-effectiveness analysis _ Original Research Article
Pages 4-9
Andrew W. Dick, Eli N. Perencevich, Monika Pogorzelska-Maziarz, Jack Zwanziger, Elaine L. Larson, Patricia W. Stone

Impact of the International Nosocomial Infection Control Consortium (INICC) multidimensional hand hygiene approach in 3 cities in Brazil Original Research Article
Pages 10-15

Comparison of hand hygiene monitoring using the 5 Moments for Hand Hygiene method versus a wash in–wash out method Original Research Article
Pages 16-19
Venkata C.K. Sunkesula, David Meranda, Sirisha Kundrapu, Trina F. Zabary, Melissa McKee, David R. Macinga, Curtis J. Donskey
Breakthrough bacteremia in the neonatal intensive care unit: Incidence, risk factors, and attributable mortality  
Original Research Article  
Pages 20-25  
Ming-Horng Tsai, Shih-Ming Chu, Jen-Fu Hsu, Reyin Lien, Hsuan-Rong Huang, Ming-Chou Chiang, Ren-Huei Fu, Chiang-Wen Lee, Yhu-Chering Huang

Health care workers' knowledge and practices regarding the prevention of central venous catheter-related infection  
Original Research Article  
Pages 26-30  
Sameer A. Alkubati, Nadia T. Ahmed, Osama N.E. Mohamed, Akram M. Fayed, Hayam I. Asfour

Collateral benefit of screening patients for methicillin-resistant Staphylococcus aureus at hospital admission: Isolation of patients with multidrug-resistant gram-negative bacteria  
Original Research Article  
Pages 31-34  
Makoto Jones, Christopher Nielson, Kalpana Gupta, Karim Khader, Martin Evans

Staphylococcus aureus and the oral cavity: An overlooked source of carriage and infection?  
Original Research Article  
Pages 35-37  
M.G. McCormack, A.J. Smith, A.N. Akram, M. Jackson, D. Robertson, G. Edwards

Health care–associated methicillin-resistant Staphylococcus aureus infections increases the risk of postdischarge mortality  
Original Research Article  
Pages 38-43  
Richard E. Nelson, Vanessa W. Stevens, Makoto Jones, Matthew H. Samore, Michael A. Rubin

Economic evaluation of appropriate duration of antibiotic prophylaxis for prevention of neurosurgical infections in a middle-income country  
Original Research Article  
Pages 44-47  
Aysegül Ulu-Kılıç, Emine Alp, Fatma Cevahir, Bülent Tucer, Hayati Demiraslan, Ahmet Selçuklu, Mehmet Doğanay

Surgical site infection rates in 16 cities in Turkey: findings of the International Nosocomial Infection Control Consortium (INICC)  
Original Research Article  
Pages 48-52  

Outbreak of hepatitis C virus infection associated with narcotics diversion by an hepatitis C virus–infected surgical technician  
Original Research Article  
Pages 53-58  
Amy E. Warner, Melissa K. Schaefer, Priti R. Patel, Jan Drobeniuc, Guoliang Xia, Yulin Lin, Yury Khudyakov, Candace W. Vonderwah, Lisa Miller, Nicola D. Thompson

A 4-year prospective study to determine the incidence and microbial etiology of surgical site infections at a private tertiary care hospital in Mumbai, India  
Original Research Article  
Pages 59-62  
Sweta Shah, Tanu Singhal, Reshma Naik

Hospital respiratory protection practices in 6 U.S. states: A public health evaluation study  
Original Research Article  
Pages 63-71  
Kristina Peterson, Debra Novak, Lindsay Stradtman, David Wilson, Lance Couzens
Current practices and barriers to the use of facemasks and respirators among hospital-based health care workers in Vietnam  Original Research Article
Pages 72-77
Abrar Ahmad Chughtai, Holly Seale, Tham Chi Dung, Lisa Maher, Phan Thi Nga, C. Raina MacIntyre

Real-time measurements of airborne biologic particles using fluorescent particle counter to evaluate microbial contamination: Results of a comparative study in an operating theater  Original Research Article
Pages 78-81
Chunyang Dai, Yan Zhang, Xiaoling Ma, Meiling Yin, Haiyang Zheng, Xuejun Gu, Shaoqing Xie, Hengmin Jia, Liang Zhang, Weijun Zhang

Evaluation of hydrogen peroxide vapor for the inactivation of nosocomial pathogens on porous and nonporous surfaces  Original Research Article
Pages 82-85
Sebastian Lemmen, Simone Scheithauer, Helga Häfner, Saber Yezli, Michael Mohr, Jonathan A. Otter

Brief Reports
Health care–acquired infections in neonatal intensive care units: Risk factors and etiology  Original Research Article
Pages 86-88
Zorana M. Djordjevic, Ljiljana Markovic-Denic, Marko M. Folic, Zoran Igrutinovic, Slobodan M. Jankovic

Evaluation of routine pretransplantation screening for methicillin-resistant Staphylococcus aureus in hematopoietic cell transplant recipients  Original Research Article
Pages 89-91
Arianna Miles-Jay, Sara Podczervinski, Zach J. Stednick, Steven A. Pergam

Stickers used for identification of intravenous lines may be a source of contamination  Original Research Article
Pages 92-94
María Guembe, María Jesús Pérez Granda, Raquel Cruces, Pablo Martín-Rabadán, Emilio Bouza

Journal of Hospital Infection
Volume 89, Issue 1, Pages 1-76, January 2015

Development of a sporicidal test method for Clostridium difficile

Editorial
Sporicides for Clostridium difficile – do they do what it says on the tin?  Original Research Article
Pages 1
A.P. Fraise, Sporicidal Taskforce

Original Article
Development of a sporicidal test method for Clostridium difficile  Original Research Article
Pages 2-15

General Section

Reviews
Surface-attached cells, biofilms and biocide susceptibility: implications for hospital cleaning and disinfection  Review Article
Pages 16-27

Is surgical site scrubbing before painting of value? Review and meta-analysis of clinical studies  Review Article
Original Articles

Analysis of interventions to reduce the incidence of *Clostridium difficile* infection at a London teaching hospital trust, 2003–2011

O. Marufu, N. Desai, D. Aldred, T. Brown, I. Eltringham

Outbreak of *Serratia marcescens* postoperative infection traced to barbers and razors

P. Leng, W.L. Huang, T. He, Y.Z. Wang, H.N. Zhang

Hand hygiene monitoring technology: a systematic review of efficacy

J.A. Srigley, M. Gardam, G. Fernie, D. Lightfoot, G. Lebovic, M.P. Muller

Remifentanil-based anaesthesia increases the incidence of postoperative surgical site infection

T. Inagi, M. Suzuki, M. Osumi, H. Bito

Short Report

Universal treatment success among healthcare workers diagnosed with occupationally acquired acute hepatitis C

S.E. Tomkins, B.D. Rice, K. Roy, B. Cullen, F.M. Ncube

Journal of Infection Prevention
January 2015; Vol. 16, No. 1

Editorial

Informing the practice of infection prevention and control

Jennie Wilson

Original Articles

Adenosine triphosphate bioluminescence assay for monitoring contamination of the working environment of anaesthetists and cleanliness of the operating room

Tomoko Fukada, Yuri Tsuchiya, Hiroko Iwakiri, and Makoto Ozaki

Knowledge, attitude and practice of standard precautions of infection control by hospital workers in two tertiary hospitals in Nigeria

Dimie Ogoina, Kemebradikumo Pondei, Babatunde Adetunji, George Chima, Christian Isichei, and Sanusi Gidado

The misuse and overuse of non-sterile gloves: application of an audit tool to define the problem

Jennie Wilson, Jacqui Prieto, Julie Singleton, Vivienne O’Connor, Siobhan Lynam, and Heather Loveday

Commentary

Outbreak Column 16: Cognitive errors in outbreak decision making

Evonne T Curran
Infection Control and Hospital Epidemiology
Volume 36 - Issue 01 - January 2015
Please note that articles from this journal can only be sourced from the British Library, at a cost of £8 per article.

Original Article
Cost-Benefit Analysis from the Hospital Perspective of Universal Active Screening Followed by Contact Precautions for Methicillin-Resistant Staphylococcus aureus Carriers
James A. McKinnell, Sarah M. Bartsch, Bruce Y. Lee, Susan S. Huang and Loren G. Miller
Infection Control & Hospital Epidemiology / Volume 36 / Issue 01 / January 2015, pp 2 – 13

Commentary
Economic Analysis of Universal Active Surveillance Screening for Methicillin-Resistant Staphylococcus aureus: Perspective Matters
JaHyun Kang, Kenneth J. Smith, Cindy L. Bryce and Carlene A. Muto
Infection Control & Hospital Epidemiology / Volume 36 / Issue 01 / January 2015, pp 14 – 16

Original Articles
Cost-Effectiveness of Strategies to Prevent Methicillin-Resistant Staphylococcus aureus Transmission and Infection in an Intensive Care Unit
Courtney A. Gidengil, Charlene Gay, Susan S. Huang, Richard Platt, Deborah Yokoe and Grace M. Lee
Infection Control & Hospital Epidemiology / Volume 36 / Issue 01 / January 2015, pp 17 – 27

Screening for Methicillin-Resistant Staphylococcus aureus Colonization Using Sponges
Chang-Seop Lee, Bianca Montalmont, Jessica A. O’Hara, Alveena Syed, Charme Chaussard, Traci L. McGaha, Diana L. Pakstis, Ju-Hyung Lee, Kathleen A. Shutt and Yohei Doi
Infection Control & Hospital Epidemiology / Volume 36 / Issue 01 / January 2015, pp 28 – 33

Methicillin-Resistant Staphylococcus aureus (MRSA) Nasal Real-Time PCR: A Predictive Tool for Contamination of the Hospital Environment
David J. Livorsi, Sana Arif, Patricia Garry, Madan G. Kundu, Sarah W. Satola, Thomas H. Davis, Byron Batteiger and Amy B. Kressel
Infection Control & Hospital Epidemiology / Volume 36 / Issue 01 / January 2015, pp 34 – 39

Postoperative Burden of Hospital-Acquired Clostridium difficile Infection
Zaid M. Abdelsattar, Greta Krapohl, Layan Alrahmani, Mousumi Banerjee, Robert W. Krell, Sandra L. Wong, Darrell A. Campbell, Jr, David M. Aronoff and Samantha Hendren
Infection Control & Hospital Epidemiology / Volume 36 / Issue 01 / January 2015, pp 40 – 46

Frequency, Risk Factors, and Outcomes of Vancomycin-Resistant Enterococcus Colonization and Infection in Patients with Newly Diagnosed Acute Leukemia: Different Patterns in Patients with Acute Myelogenous and Acute Lymphoblastic Leukemia
Clyde D. Ford, Bert K. Lopansri, Souha Haydoura, Greg Snow, Kristin K. Dascomb, Julie Asch, Finn Bo Petersen and John P. Burke
Infection Control & Hospital Epidemiology / Volume 36 / Issue 01 / January 2015, pp 47 – 53

Minn M. Soe, Jonathan R. Edwards, Dawn M. Sievert, Philip M. Ricks, Shelley S. Magill and Scott K. Fridkin
Infection Control & Hospital Epidemiology / Volume 36 / Issue 01 / January 2015, pp 54 – 64

Validation of an Automated Surveillance Approach for Drain-Related Meningitis: A Multicenter Study
Maaike S. M. van Mourik, Annet Troelstra, Jan Willem Berkelbach van der Sprenkel, Marischka C. E. van der Jagt-Zwetsloot, Jolande H. Nelson, Piet Vos, Mark P. Arts, Paul J. W. Dennesen, Karel G. M. Moons and Marc J. M. Bonten
A Cluster of Central Line–Associated Bloodstream Infections Due to Rapidly Growing Nontuberculous Mycobacteria in Patients with Hematologic Disorders at a Japanese Tertiary Care Center: An Outbreak Investigation and Review of the Literature
Yasuaki Tagashira, Yasuji Kozai, Hitomi Yamasa, Masako Sakurada, Tetsuya Kashiyama and Hitoshi Honda
Infection Control & Hospital Epidemiology / Volume 36 / Issue 01 / January 2015, pp 65 – 75

Risk Factors for Mycobacterium abscessus subsp. bolletii Infection After Laparoscopic Surgery During an Outbreak in Brazil
Gabriela Baruque Villar, Felipe Teixeira de Mello Freitas, Jesus Pais Ramos, Carlos Eduardo Dias Campos, Paulo Cesar de Souza Caldas, Fernanda Santos Bordalo, Tatyana Costa Amorim Ramos, Vivian do Nascimento Pereira, Marcelo Cordeiro-Santos, Joao Hugo Abdalla Santos, Glaucio Coelho Motta, Suzie Marie Gomes, Verena Maria Mendes de Souza and Wildo Navegantes de Araujo
Infection Control & Hospital Epidemiology / Volume 36 / Issue 01 / January 2015, pp 76 – 80

Infection Control Preparedness for Human Infection With Influenza A H7N9 in Hong Kong
Infection Control & Hospital Epidemiology / Volume 36 / Issue 01 / January 2015, pp 81 – 86

Influence of Staff Behavior on Infectious Risk in Operating Rooms: What Is the Evidence?
Gabriel Birgand, Philippe Saliou and Jean-Christophe Lucet
Infection Control & Hospital Epidemiology / Volume 36 / Issue 01 / January 2015, pp 87 – 92

Comparison of NHSN-Defined Central Venous Catheter Day Counts with a Method that Accounts for Concurrent Catheters
Thomas R. Talbot, James G. Johnson, Theodore Anders and Rachel M. Hayes
Infection Control & Hospital Epidemiology / Volume 36 / Issue 01 / January 2015, pp 107 – 109

Changes to clinician attire have done more harm than good.

Evaluating the cost-effectiveness of strategies to prevent vascular access device infections.

The role of dressings in the prevention of vascular access device infections.

Effective strategies for reducing the incidence of catheter-related bloodstream infections.

Probiotics for preventing ventilator-associated pneumonia.
An outbreak of extremely drug-resistant Pseudomonas aeruginosa in a tertiary care pediatric hospital in Italy.
BMC Infect Dis. 2014 Sep 10;14:494.
Free PMC Article

Nasal Colonization and Lower Respiratory Tract Infections with Methicillin-Resistant Staphylococcus aureus.
Tilahun B, Faust AC, McCorstin P, Ortegon A.

Patient-level interventions to prevent the acquisition of resistant Gram-negative bacteria in critically ill patients: a systematic review
A Zaky, SB Zeliadt, MM Treggiari
Anaesthesia and Intensive Care, Volume 43, Issue 1, 23-33

Evidence Updates

Antibiotic strategies for eradicating Pseudomonas aeruginosa in people with cystic fibrosis.
Langton Hewer SC, Smyth AR.

Department of Health publications

Statistics: MSSA bacteraemia: monthly data by NHS acute trust
7 January, 2015 at 09:30am
[Updated: Updated to include November 2013 to November 2014 data.]
Monthly counts of trust apportioned meticillin susceptible Staphylococcus aureus (MSSA) bacteraemia by NHS acute trust.

Statistics: Escherichia coli (E. coli) bacteraemia: monthly data by NHS acute trust
7 January, 2015 at 09:30am
[Updated: Updated to include November 2013 to November 2014 data.]
Monthly counts of Escherichia coli (E. coli) bacteraemia by NHS acute trust.

Statistics: Clostridium difficile infection: monthly data by NHS acute trust
7 January, 2015 at 09:30am
[Updated: Updated to include November 2013 to November 2014 data.]
Monthly counts of trust apportioned Clostridium difficile (C. difficile) infections by NHS acute trust in patients aged 2 years and over.

Conferences

ips
Infection Prevention Society
Infection Prevention 2015
ACC, Liverpool, 28th - 30th September 2015
